

Windsor

Discover the Windsor, a home with sensational living at its heart. The spacious dining, adjacent to the kitchen, opens to a spectacular double size alfresco making indoor-outdoor entertaining and relaxing a breeze. A massive lounge flows off the family/dining room with a recess giving privacy to the movie watches. The master suite is your own private retreat, and the separate family bedroom wing includes an activity zone the kids will love (also can be used and shown below as a study).
